WALKING AND BIKING TO SCHOOL SHOULD BE EASY CHOICES.

...as natural as looking both ways before crossing the street. But in [COMMUNITY], too many children have to choose between a safe option and a healthy one. With childhood obesity on the rise in America, we don’t need safety to be an obstacle to our kids incorporating daily exercise into their lives.

Building streets and sidewalks that allow kids to get to school safely will help blaze the trail for healthy change. Let’s use the funding we have to create space for our kids to walk and bike safely to school.

Look both ways—to a safe and healthy future—at
